SUMMARY

Motivated and versatile software engineer with a strong foundation in computer science and a passion for developing innovative & scalable solutions. Seeking opportunities to apply technical skills to cutting-edge projects that meet stakeholder needs.

EDUCATION

B.S. in Information Technology

Sep 2021 - Present

New Jersey Institute of Technology - Ying Wu College of Computing

Newark, NJ

Relevant Coursework:

- Advanced Internet Applications | Advanced Web Development | Intro to Website Development
- Systems Integration | Database Design Management & Applications | Intro to Information Technology

KEY SKILLS

Lean Agile & Scrum - SDLC - Object Oriented Programming - RESTful API development - Debugging
Responsive Web Design - SEO Optimization - Unit Testing

TECHNICAL SKILLS

Languages/Frameworks: Python, C++, SQL, CSS, HTML5, JavaScript, Next.js, Node.js, React.js, Swift, Bootstrap CSS

Tools: Docker, Git, Google Analytics, Google Lighthouse, JIRA, Oracle Cloud, Playwright, Postman, Vercel

PROJECTS

MyWebClass.org - NJIT

- Developed a fully responsive marketing website using **JavaScript, React, Next.js** and **Tailwind CSS**
- Utilized **Google Analytics** to track user engagement and perform **A/B testing** to optimize user conversion rates
- Integrated **Mailchimp API** to enable automated email marketing campaigns
- Conducted **unit testing** and **functionality assurance** using Playwright and Artillery tests, ensuring the website's reliability

EXPERIENCE

Software/Hardware Support Technician - JP Morgan Chase & Co

Nov 2022 - Present

USEReady Inc

New York, NY

- Collaborated with a team of six technicians to **test & debug** network/hardware errors on computers, VMs, and peripherals
- Assisted senior technicians to learn how to configure virtual machines, debug shell scripts, and **optimize hardware**
- **Documented** 10 bugs/errors and reported them to senior technicians and network security team on a daily basis

Student Research Assistant - Johns Hopkins University

Oct 2018 - Mar 2019

Oasis - A Haven for Women and Children

Paterson, NJ

- Facilitated first-time programming experience to 25 participants using **MIT App Inventor**
- **Refined survey data** based on the technical literacy of participants to prevent outlier data from drastically affecting conclusions
- Compiled program data for 23 days and analyzed quantitative survey results for presenting in **research article**
 - "An after-school STEM program through the lens of intersectionality," Springer Nature, Apr 2022.
